

Product information | TECHNICAL DATA SHEET

**GLASS TO MIRROR CONVERTER**

400 ml, 10.95 Oz, 285 g.

**GENERAL DESCRIPTION**

Decorative paint with a shiny chrome effect that converts glass and other transparent, rigid materials like perspex into mirrors when applied to the reverse of the surface. Due to variations in materials, we recommend trying out the paint on a test surface first.

The MTN PRO Glass to Mirror Converter is a decorative paint especially suitable for turning any glass into a mirror. The product should be applied on the opposite side of the surface to be converted.

**CHARACTERISTICS**

- Fast-drying.
- High gloss.
- High coverage.
- Does not contain lead.
- Not weatherproof.
- Low resistance to rubbing.

**INSTRUCTIONS FOR USE**

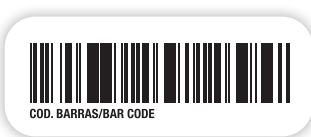

- Shake the spray can well before use for about one minute after hearing the sound of the mixer ball.
- Apply on clean, dry and completely smooth surfaces.
- Apply in very thin coats for best results. Shake the can during application. Apply until the desired effect is achieved.
- Once dry, add a coat of matt black paint (MTN 94) to enhance the result and avoid scratches, as this product has a limited resistance to friction. We can also enhance the mirror effect and protect the paintwork with an opaque black membrane made of wood or cardboard.
- Invert the spray can to purge the valve after use. If the cap becomes clogged replace it with a new one.
- Do not apply to plugged-in electronic equipment and use in well-ventilated areas.

**GENERAL DESCRIPTION**

Binder type:	Special resin
Color:	Chrome
Dry to the touch (ASTM D-1640 ISO 1517):	10-20'
Total dry time (ASTM D-1640 ISO 1517)	2 h
Thickness of dry coat (ASTM D-823 ISO 2808):	<5 µ/coat
Adherence (ASMT D-3359 ISO 2409):	Not applicable
Theoretical performance:	1,25 m2
Second coat:	after 10-15 min
Solvent:	Acetones
Shelf life:	< 5 years (Well Stored)
Application conditions:	Atmospheric temp 15-25°C
	Surface temp. from 10°-30 C
	Maximum humidity 85% R.H.P

\* Times may vary depending on thickness of coat.

**LABEL**

**CAP SYSTEM**

Convertidor de Vidro en Espejo / Glass to Mirror Converter  
EX014PR0700

**APPLICATION**

Decorative effect paint for visual and fine arts, highly suitable for painting glass surfaces (windows, decorative elements, glass doors, etc. and in general all glass elements that are to be converted into a mirror).

- DIY.
- Fine Arts.
- Plastics.
- Touch-ups on metallic parts.

This product has little resistance to friction/rubbing, thus resulting in a loss of gloss and the mirror effect.

Once dry add a coat of matt black paint (MTN 94) to enhance the result and avoid scratches, as this product has a limited resistance to friction. We can also enhance the mirror effect and protect the paintwork with an opaque black membrane made of wood or cardboard.
